

SERIOUSLY BIG SOUND.

The Acoustix Evara proves that big sound doesn't require a large footprint. Designed to deliver rich, detailed performance, it brings music and movies to life in spaces of all sizes.

Versatile and easy to place due to their dual front vent design, they adapt to the way you live, whether on stands, within shelving or integrated into custom joinery.

Blending seamlessly into modern interiors while delivering unmistakable performance, the Acoustix Evara is made for living.

For the ultimate sound experience at home, play it through Krix.

Acoustix Evara in Studio Grey without grille
