

Krix Banana Plugs are a high quality, gold plated connector to conveniently connect your speaker wire to your speakers and speaker equipment.

Assembly to the speaker wire is a simple process. Featuring the use of two clamping screws, the Banana Plug design ensures a great connection.

Suitable wire sizes range between 18 AWG - 10 AWG, or conductor diameters up to approximately 3mm.

FEATURES

- Gold plated phosphor bronze contacts
- Dual clamping screw connection system
- 4.6mm hole size
- 2 of both Positive and Negative Banana Plugs supplied per pack (Total 4 items)
