

ULTIMATE FLEXIBILITY

At the centre of every great home cinema is clarity. The Graphix Evara is designed to bring voices and detail to the forefront, creating a natural and intricate listening experience.

Balanced and precise, it integrates effortlessly with your system to deliver a cohesive soundstage, where every word, every moment, feels connected and true.

Its compact form dual front firing vents make it ideal for modern living spaces, whether positioned on display or neatly integrated within cabinetry.

For the ultimate sound experience at home, play it through Krix.
